# Eat Strawberries with DIXON

## The Strawberry Plant King Every Month in the Year

### Here's The DIXON Strawberry Feast

**A WONDERFUL COLLECTION OF THE FINEST VARIETIES** of strawberries yet discovered. This collection includes the best of the very earliest fruiting, the staple medium and mid-summer heavy bearing and delicious juicy favorites and a liberal quantity of the choicest and surest of the **EVERBEARING** which positively keeps up a generous supply all through the late summer, early and late fall. Cold winter alone will stop your long-long summer feast of the world's most delicious fruit. And then by canning whole, preserving and amplying on the jam supply—you can continue the feast all the year 'round, or until the extra-earlys start a new year and a new year-round feast for you.

**THEY CALL ME THE STRAWBERRY PLANT KING** because I grow them so extensively—probably more than any other grower in the world. With my new plantings—I will probably exceed 30,000,000 plants per year.

**YOU CAN'T GET AS GOOD PLANTS ANYWHERE ELSE** —Because They Can't Grow Them as Good Anywhere Else.

Did you ever read the amazing story of the Loess soil district covering a small belt up and down the Western Missouri and Eastern Kansas lines—as published in the Official Government and State Bulletins and Reports. Their official tests of plant growth and fruitage proves no other such soil on earth for growing strawberry and other fruit plants—and don't you forget I am the only strawberry plant grower on earth in the Loess soil zone. When you see my plants—their wonderful vigorous full of vim roots, and then notice how they start quickly, you'll be absolutely convinced.

**EVERY FARM HOME AND EVERY TOWN GARDEN** Ought to Have a Dixon Strawberry Feast.

Now about named varieties. I have every one of the main varieties—as I grow many varieties wholesale for plant brokers, which I would not recommend to my own trusting customers. If you want absolutely the right varieties—those which are the real ones for

you to buy—then leave it to me, and I will include in your individual order, just those that are positively the best for your climate and territory. If however, you want certain varieties and wish to buy on your own responsibility, say so and send names—I'll gladly furnish instead of my choice.

### EVERBEARING Strawberries

**EVERBEARING STRAWBERRIES** are positively an unqualified success—they are more delicious than the old-time spring varieties, in fact folks who have tried them know of their superior qualities. They

are prolific bearers and of fine choice berries, even shape and large size. We grow four of the best ones—and will include only the finest in your collection. Remember—we have a national reputation to sustain, and we are making the Dixon Strawberry Feast a top-notch prize-taker and friend maker.
